### Summary

Couldn't find an adaptor to fit a spool with inside diameter of 72mm to sit inside an eibos drying box. so I made one.

Adaptor dimensions are for spools 61mm deep to fit on a 49mm shaft in the eibos drying box. The adaptor shaft diameter for the inside of the spool is 72mm. Total width is 69mm. Wall diameter is 72mm and internal opening is 50mm. I will put up a picture of my poor sketch that I made so I could workout all the dimensions
