I needed a holder for a Netgear GS110 to fix vertically on the **SKÅDIS** pegboard. It also fits other Netgear GS1xx series.

It uses a dovetail system (see below) removing the hassle of those pegs. It's a tight fit. I added a file with supports where needed. The supports can be removed as one piece :-)

I used PETG on draft 0.25mm with 3 perimeters and 5% infill.
