Summary

A long and practice Towel Hook to stand a hand towel

[Household](#) > [Bathroom](#)

Tags: [bathroom](#) [hook](#) [towel](#) [towelhook](#) [wallhook](#)

I printed with Prusa Mk3S+ and PLA Sick Gold, but I think with PETG would be more durable and stronger

You can fix with 2 screws in both stands and use the cap to hide the screws. You will need some skill to tighten the screws, cause the space between the cap and the screw is not big

I recommend support on the hole to put the stand, but I think that is not mandatory
