### Summary

Store your model paints in a tower!

[Hobby & Makers](#) > [Tools](#)

Tags: [boardgames](#) [modelpainting](#) [paint](#) [storage](#)

Store your model paints in stacks, saving time and space! There are various sizes to fit many brands of paint, and a few variations on the central design depending on your preferences. Stack them freestyle, or push a rod through the centre for added rigidity. The design allows the removal of bottles without disassembling the tower.
