### Summary

The handle for the top of our crock pot broke. This fits the lid for a Cuisinart model PSC-350. Maybe others.

Prints in two parts. Uses an m4 nut and screw. The top part is to be glued in place after the nut is inserted. I recommend attaching to the lid before gluing the top part. Made from black PETG and has been through the dishwasher multiple times without issue. I printed the top part on a textured sheet so it would be visible when assembled.
