This is a 6 device USB holder designed to get your frequently used USB devices off of your desk and out of your way, USB devices are snugly held by flexible clips inside each holder. In the included picture, its mounted by double backed foam tape onto the IKEA LÖRBY 3 port USB charger onto a monitor, removing both from the surface of the desk when I'm not using them.

Print Settings

Printer:

Kodama Trinus

Rafts:

No

Supports:

No

Resolution:

0.14 Layer Height, 0.4 Nozzle

Infill:

100%

Filament:

Overture PETG

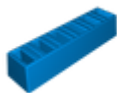

Electrical Blue

Notes:

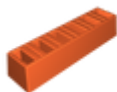

Not a difficult print at all, shouldn't be much of an issue to print if you're decently calibrated for bridging, and your nozzle isn't too large.
