updated 9. 10. 2022 | published 9. 10. 2022

Summary

Work in progress... You will need to buy 32 mm PVC pipe from hardware store to make it.

[Household](#) > [Bathroom](#)

Tags: [bathroom](#) [floor](#) [holder](#) [shower](#)

Depend in file choose orientation to make it as strong as possible.

STP file added to make it easy to fit for needs.

Additional wall mount will be needed to make pipe more stiff (in the middle).

Bottom foot should be (at the bottom) additionally covered with sanitary silicone to prevent movement. Model is not perfect, (more like WiP), so start with importing STP and carefully check parts before printing.
