---

I designed this to stop Myna Birds crapping on my back deck.

I made 2 designs, one that you can stick coat hanger wire or bamboo sticks( my preference)

or a base you can print spikes for.

To make spike stronger always print them horizontally.

Supports used for base, might not be needed, but I always do supports(just in case)

Infill can be anywhere over 20%

I am printing in black to match house, any color is fine

## Print Settings

### Printer Brand:

Creality

**Printer:**

Ender 3

**Rafts:**

No

**Supports:**

Yes

**Resolution:**

200

**Infill:**

20

**Filament:** PolyMaker PLA Does Not Matter

Category: Outdoor & Garden
