Model from: <https://www.thingiverse.com/thing:1720957>

This is a battery pack cover for Xbox One elite controllers. It was designed to be compatible with the Energizer Charging System. The charge can be found here:

<https://www.amazon.com/Microsoft-licensed-Energizer-Charging-System-Xbox/dp/B00EADTVLW/>

This charging system is not compatible with Elite controllers as they have a different orientation for the lock pins, so I designed a back that is compatible. I used the Xbox One Controller Battery Cover by Stephen\_J as a template.
