Great work by Velvinator on the OP Tokaido organiser, but I wanted to add the extra tabletop components to the box too, so hollowed out the miscellaneous box. To fit the coinholder, I had to reduce the size of the token holder that notched into the box.

I added a divider for the player cards. Just something to separate the original, Crossroads and Matsuri characters.

Original: "Tokaido Complete Organizer" by [velvinator](#)

As a bonus, I made a dice tray to fit into the token box and will upload that separately.

Print Settings

Printer:

Artillery Sidewinder X2 (0.4mm nozzle)

Rafts:

No

Supports:

No

Resolution:

0.20 and 0.28

Infill:

15%

Filament:

Sunlu PLA+

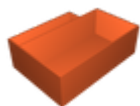

White

Notes:

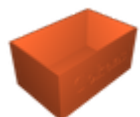

I've had a problem with at least one corner lifting, and used 'mouse ears' and a brim on bigger prints. Seems to work.
