This is a 3d-printable version of the so-called "623h bearing housing" for the Prusa i3 MK3.

In **this step of the** Prusa manual it is used for the Y-Axis, but I think it's the same for the X-Axis.

I think a part like this definitely doesn't have to be out of metal; it's just an idler... :)

### Print Settings

#### Rafts:

No
