This is a remix of olincoles handle made for a Lee Precision brass trimming tool. I modified the handle to fit over the existing handle of a Kitchen Aid mixer to make it easier for my mom to turn the handle. It's a tight fit but I used a little hot melt glue to make sure it doesn't come off. Printed on a [Prusa](#) Mini+

I printed it with the flat side down (opposite of what is shown in the file photo) and no supports.
