I love the [original Crosmen Pump Arm with Wide Grip by Gecko23](#) but it would not fit my Crosmen 1377, I guess Crosmen changed the design at some point. Maybe that applies to the 1322 as we.

I made some changes to the original design to make it fit mine, as well as some other minor changes, such as adding indents for the screw heads so that they are contained within the pump grip and so the screws will be perfectly central with the pump bar.

File info

Crosmen_Pump_handle_new.stl the handle itself. The screw indents on the same side as the original crosmen grip.

Crosmen_Pump_handle_new_flipped.stl the same but flipped so the screw indents are on the other side. I printed this for some reason myself.

Crosmen_pump_handle_test_fit.stl file to print to see if this new model is appropriate for fitting to your Crosmen.
