updated 10. 10. 2022 | published 10. 10. 2022

### Summary

I made the Ikea Lack enclosure (V2). With this print I added a shelf under it.

8.18 hrs

1 pcs

0.20 mm

0.40 mm

PET

110 g

Prusa  
MK3/S/S+

I added a 3rd Lack table under the enclosure making it taller and also put wheels.

The long legs are simply original ones screwed together with original Ikea double-screw.

Put 2 very long screws from under the lower table for keeping in place the legs.

The shelf itself is from bigger the Lack table, cut in half. You'll have one side without the white furniture... I put this side on the rear!
