## Summary

My design of printable spool holder.

---

[3D Printers](#) > [Accessories](#)

---

Simple table holder for filament.

- Designed to fit with M8 treaded rod to hold your filament spool.
- Added M8 nut covers to hide nuts on external nuts on treaded rod.
- 4 small screws needed for completion
- 4 optional holes in design to attach holder to table

Recommended model to hold spool on treaded rod :
