Summary

A wall mount for a Galaxy A7 lite tablet

[Hobby & Makers](#) > [Other Ideas](#)

I created this wall mount for a galaxy A7 lite.
I wanted to use it in a up right position but it can also be used on its side.

I use it personally for home assistant and it works very well.

In the bottom is a little slot where a USB C can be glued in to this way the tablet always stays charged. The wires can go to the large hole by a groove in the back. The holes are designed to fit on a standard wall socket. for easy installation.

PS: The camera on the pictures doesn't fit nicely this has been corrected and will fit in the middle.
