updated 10. 10. 2022 | published 10. 10. 2022

Summary

Bushing to protect cables from damage when pulling

[Hobby & Makers](#) > [Mechanical Parts](#)

This is an insulated bushing that fits electrical conduit threads to protect the wire from damage when pulling. It will fit directly on threaded pipe or on the male adapters for EMT and Plastic Pipe. No guarantee this is to code or suitable for your purpose.
