Summary

A carrying handle that attaches with 2x M4 bolts and t-nuts for anything with a 2020 extrusion (like a 3D printer)

This is a simple carrying handle that will attach to a 2020 extrusion with 2x M4x12 screws and T-nuts. I use it as a carrying handle for my Ender 3 V2.

The CAD document is on [Onshape](#) and is public for anyone who wishes to edit the model to suit their needs.
