Inspired by RedDadSteves Looney Tunes Sign I attempted to create my own in Fusion 360 without remixing his original files. Hope everyone enjoys!

PLA material and settings used

0.2 layer height, 20% infill on a Creality CR10 V3 running Nics Firmware

eSun Fire Engine Red for the outer ring/base

eSun Red for the outer rings

eSun Orange for the inner rings

eSun White for the Letters with Fire Engine Red for the High Lights(just changed filament at layer 21 - 4mm height

eSun Black for the Letter surround and Stand

This remix is based on

Looney Tunes Logo

by reddadsteve
