Edit 05/08/2023

add a 29mm variant

I design this simple yet effective headphone holder for my Ikea Idasen desk. I like to keep my desk as clean as possible, so I came up with an under desk solution

No extra hardware needed; it uses the original screw of the desk

It has 2 holes where you place the headphones to easily reach the mounting screws

Printing tip: print the model oriented as shown in the picture to ensure better strength to the holder

This holder is design for 26mm headphones width; if interested in a larger holder, just ask
