updated 10. 10. 2022 | published 10. 10. 2022

## Summary

A customizable box, with subdivisions

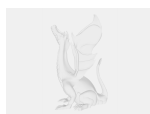

[Hobby & Makers](#) > [Organizers](#)

A remix of [moshen's parametric/customizable box from Thingiverse](#). This version supports multiple compartments. The given dimensions are the interior dimensions of an individual compartment. When the number of compartments is set to 1, this should give you exactly the original box.

Default dimensions shown here are for storage of my [binoculars solar filters](#).
