Tags: [disposable](#) [medical](#) [tongue](#) [depressor](#)

Wall-mounted tongue depressor dispenser. Mounts to the wall with command-strips. There is tolerance on the inside to glue a thin piece of clear plastic so that the supply of depressors can be viewed without leaving them exposed. Dispenser is intended for non-sterile tongue depressors. Could be scaled up for individually packaged ones. If damaged or soiled, you could print roughly a hundred new ones for the price of a commercially produced one.
