Summary

Replacement for the factory coaster in the bottom of the F150 cup holders (2017)

[holder](#) [liner](#)

So, you take the factory coasters out to clean them, then lose them. You still need to cover up the key hole in the bottom. These are printable without supports. Instead of a tab to pull them out with, they have a 10 degree draft angle on the inside perimeter so that you can grab them with a fingernail. Print with the 9 ribs face down.

TPU is nice, but I guess it doesn't matter.
