## Summary

Two new types of lynx triggers, including the OG flat triggers.

Since my original flat triggers for the Orion Blasters Lynx were so popular, I decided to make a couple more for people to enjoy. The Lynx\_Speed\_Trigger has a similar feel and pull to the stock trigger, if you prefer that kind of trigger pull. Otherwise, the three variants of flat trigger all have the same amazingly snappy pull. All triggers have the included .step files, should you want to make your own Lynx triggers. Enjoy!
