Summary

This is an alternative vertical cable guide for the Ender 3 S1 and S1 Pro. V04 enables the use of the laser holder.

Be one of ten who leave a Like at Printables and support me with it :)

The new version 04 allows to use the original holder of the laser module.

For the assembly, the extruder must be disassembled by means of 4 screws and additionally 2 screws of the original cable holder.

V3.1 and V3.2 are a simple design - plug & play without disassembly of the extruder.

Of these two models, I personally prefer V03.1 as it is the easiest to assemble.

The brackets have been designed to use the full installation space of 220x220x270mm.

If the part helps you, I would be very happy about a make :)

Printer: Creality Ender 3 S1 Pro

Walls: 3

Filling 20% for V04

Do not forget to also install the cable guide for the **heating bed cable.**

Check out my **other designs** too!
