Pre-Supported .stl and .lys files for resin included by **Charro Zuck** support services.

Tags

I provide two versions. One that with the full bust and a separate base, and one version with split upper teeth for easier FDM printing. The separate teeth version is in the zip file.

Supports are needed for the bottom part of the mouth and jaw, and also the tube on his armour. I didn't make pegs for the teeth because the holes would be tiny, so just a drop of glue will do the trick just fine.
