Edit: Thank you for 15.000 Downloads! I've made a 2025 Update of the model! You can [download Fünther here!](#)

I wanted to make a Flexi Dinosaur since I first saw the Flexi Rex. As my son had his birthday last week I decided this would be the perfect occasion to get going. This is the second draft, I will spare you my first attempt.

Print the model lying on the side, .2 mm layer thickness should do it. If you have troubles with the overhanging parts reduce it to .15 mm.

I'll also add a **keychain version** with a hole in the tail to put a ring through (Prince Albert).

Let me know if you enjoy the model and don't forget to post your makes!

I can't stress this enough, so I'm going to write it down here: FlexiDinos are in no way suitable for small children. Parts can break off and leave sharp edges, so make sure your children are old enough to know what they're doing before letting them play with FlexiDinos!

////////////////////////////////////

If you like this model, I have created a lot of other cool FlexiDinos. You can support my work and get exclusive stuff by becoming a **Club Member**.

- Stegosaurus **Günther** and his younger brother **Fünther** (the 2025 Update)
- Triceratops **Theobald**
- Pterodactyl **Bertha**
- T-Rex **Tessa** (free) and an **improved Version** (paid model)
- Brachiosaurus **Ginko** (paid model)
- Ankylosaurus **Gregor** (paid model)
- Velociraptor / Deinonychus / Utahraptor **JJ** (paid model)
- Dimetrodon **Karli** (paid model)
- Parasaurolophus **Filip** (paid model)

//////////////////////////////////You want a new model for free every month that is normally hidden behind the paywall? Check the **FlexiDinos Model of the Month** regularly!
