I used this [free crow skull stl](#) for creating lightweight earrings. It is a minimized crow skull. If you would like to have a bigger one, please leave a comment!

Print settings

I found out that printing this model in an **angle** with a **brim** of 8mm and a little bit of **support**, gives the best result (see picture) . And by enabling **variable layers** in the Prusa Slicer, the overhangs are minimized.

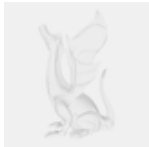

To add a more dramatic effect to the skull, I used a lighter to darken the edges a bit (and this also removed most stringing).
Please ignore the stringing in this print. This is due to very cheap PLA filament which yet needs to be dried :)

UPDATE (29 October 2022)

Added a crow skull necklace pendant.

If you enjoy my designs, please consider a donation: <https://paypal.me/melix3d> all profits will go towards [my local animal shelter](#).
