Summary

Storage and play organizers for Settlers of Catan base game and 5-6 player expansion

Toys & Games > Board Games

Tags: catan settlersofcatan

Trying to stay organized as you explore and conquer Catan? Unsatisfied with the wasted space on the factory inserts and having to store everything in multiple boxes? Try these inserts designed to make setup, play, and storage a little more chef's kiss

Fits both the base game and 5-6 player expansion into the large Catan box:

- 1x Border sleeve
- 1x Hex tile stack
- 1x Game token organizer
- 1x Reference card / longest road / largest army stack
- 6x Player piece organizer

- Resource card organizers - Option for 1⁄2 or 1⁄4 height, mix and match as you please (I personally prefer 4x 1⁄4 height so each side of the table can get it's own stack)

Please note this was designed for the 5th edition print of Catan. Compatibility with other editions is likely but not guaranteed.

Also check out my other designs for Cities & Knights and Seafarers!

Print settings used:

- 0.28mm layer height
- 10% Infill
- No support needed
