Modeled off a black house spider, this easy to print spider is perfect to freak out that loved one of yours.

Update 31/10/22

200% version for all.

Black House Spider now has hats spider:

hat normal version is square bottom and normal size.

hat big is a normal hat but bigger in z axis.

hat small is a normal hat but shorter in the z axis.

All of them also have a 200% version

Print Instructions

If you want to make the spider more realistic you have a small window to do so straight after you take it off the heat bed to bend the legs. You probably could do this after by heating the legs back up with a heat gun or with some boiling water (be careful), but its still pliable straight off the bed.
