Summary

An adorable way to store all your spooky treats this Halloween season.

This candy bowl comes in two sizes. The largest one is designed to print just within the size limit of a Prusa i3 MK3. Use super-glue to secure the stem in place.

Grid supports are recommended. There have been some reports of tree supports causing a failed print. The prints you see in the photos were printed with grid style supports and a 70 deg overhang angle. This model may need some cleanup with an x-acto knife or sandpaper after removing supports around the base and the top of the mouth opening.

Want to purchase a ready made print? Buy it and a brand new ghost candy bowl here on Etsy: <https://www.etsy.com/listing/4381771159>

The STL for the ghost bowl won't be listed here until after Halloween.
