This is a print for a bracket to mount a hose. This is designed specifically for the ResMed Climate Line Air 11 hose but as most hoses are universally sized I'm sure this will work for most.

I included two prints, one has an inner ridge to prevent the hose from sliding and the second without to allow the hose to move.

I used a single #6 x 3/4" screw to mount the bracket to the side of my nightstand.

Let me know if you have any ideas to make this print better and I can upload for everyone to enjoy.
