updated 10. 12. 2022 | published 10. 12. 2022

Summary

Quick remix of the metric version to work with 0.5" rods

[Learning](#) > [Physics & Astronomy](#)

Please refer to the [official metric version](#) for all the information about the scope, which itself is a remix of [Maff's amazing design "Hadley"](#).

These stls are for the requests I have had for the metric version, but with 0.5" rods, and are just the components which interface with the rods. The remaining components can be obtained from the official metric remix linked above.

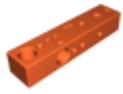

This remix is based on

Hadley Telescope Remix (Metric, Mods & More)
