updated 9. 11. 2022 | published 9. 11. 2022

Summary

A voronoi style remote holder, made in tinkercad.

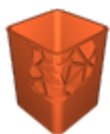

[Household](#) > [Living Room](#)

Tags: [holder](#) [remote](#) [simplifiedesign](#) [tinkercad](#) [voronoi](#)

I made this simple holder because i like recipients with a transition wholly different from their main style

Will print it later and upload pics. I made it in tinkercad and viewed it in MeshLab to take the photos, hope y'all like it
