Summary

The famous theatre where Shakespeare did many plays, but made to be 3d printed!

[3D Printers](#) > [3D Printers - Upgrades](#)

This Shakespeare globe theatre was initially made as an English assignment. I made it in Blender and also made some renders with it. Ironically, this was made nearly a year ago, but I finally got around to uploading it. :)

Here's a small short I made with it...

<https://youtube.com/shorts/nR0xKQhgs-o>

Model files

the-globe.stl

the-globe-theatre.blend

📄 Blender file for both the render and 3d printable version. --- Swap between scenes to see both
