### Summary

Sleeve for Gutter hanger to stop squeaking in high winds

0.28 hrs

1 pcs

0.20 mm

0.40 mm

PET

2 g

Prusa  
MK3/S/S+

[Household](#) > [Other House Equipment](#)

This is a snap on sleeve I designed to fit over the rain water gutter hangers. In high winds the gutter would move slightly and cause a metal to metal squeaking that was a nuisance. These snap over the ned of the clip creating a firmer connection and remove the metal to metal contact. No supports needed and printed in PTEG.

Please share your Make:)

Like the freebie? Feel free to buy me a cup of coffee with the

link above ;)
