Do you still have an overview of all your filaments? Let me help!

Here is yet another Filament sample, however without a lot of fuss. Easily printable with every setting you wish.

The end has three different thicknesses to determine the opacity of the specific filament. The samples can be easily viewed and sorted with a keyring.

I already printed a lot of them for my hoard of filaments. ;) They work great every time!

Write me a message if you need a file for a different filament. Files now include .step!
