Summary

9mm bullet designed to press into a spent shell

[Hobby & Makers](#) > [Other Ideas](#)

Tags: [9mm](#) [bullet](#) [cap](#) [snap](#) [training](#)

9mm round made to be pressed into a spent shell for training purposes.

Printed with PLA+ at 50% infill but any ole settings should work more or less fine.

Recommend you print in a shiny bright color to avoid confusion.
