Summary

A remix of tmking's wonderful base for the Rigel Quikfinder that allows temporary mounting to the scope.

Rigel Quikfinder is a popular telescope accessory. This version of the mounting plate (with two additional holes) allows you to use two bands of elastic, string or zip ties to temporarily mount the finder to the scope tube to find the best position before permanently attaching it. Or, if you have several scopes, this would allow you to move the Quikfinder from scope to scope very easily without requiring several mounting plates. This is a remix of TMKing's wonderful <https://www.thingiverse.com/thing:1160071>
