### Summary

I uploaded each color as an STL.

[Art & Design](#) > [2D Plates & Logos](#)

Depending on the size of your printer or how large you want to print this model, you may want to separate the bodies in each STL. I printed all of the pieces face-down on the textured sheet to give it a cool finish.

09/25/2023:

Updated Red STL to include upper lip. Reuploaded White and Blue as well as sizing was off for some reason.
