### Summary

Somebody commented on the size of your butt, and you wanna give them a token of your appreciation? I gotcha.

[Art & Design](#) > [Other Art & Designs](#)

Tags: [bird](#) [coin](#) [finger](#) [honeycomb](#) [makercoin](#) [hexagon](#)

A slightly different maker coin.

The height of the hand is higher than the surrounding coin edges. If the coin edge was higher, it wouldn't look nice, if the finger was flatter it loses too much detail.

It's not perfect, but it filled a need, and I thought I'd share.

**UPDATED:** storage box and lids for 4 coins with both smooth sides (0p2 version) and sides if you print with 0.4mm fuzzy edges (0p6 version). A single 'display' case is also provided to protect a single uncirculated edition :)
