Remix of M12 Shift Knob by flyinpnw.

Dropped some small washers and glued everething with epoxy to add weight. It turned out to be 140 grams.

Use tree supports for top part of the shifter (ball), everything else should print nicely. Print with PETG for heat resistance.

Orientation is wrong, just place it flat :)

Print Settings

Printer Brand:

Creality

Printer:

Ender 3

Rafts:

No
