Summary

Foldable dice tower

[Toys & Games](#) > [Board Games](#)

I printed Alaorath's [remix of this dice tower](#) just to realize that the top won't fit properly into the bottom when you fold it down. The eaves on the roof extend too far to the side. So I made a simple modification to the base by adding slits on both sides for the eaves, and the top will now collapse nicely into the base for easy storage.

This is just the modified base. Download the top part bird feeder from <https://www.thingiverse.com/thing:3548111> (original version) or from <https://www.thingiverse.com/thing:4017612> (easier to print).
