### Summary

A tray for the Cantor Split Keyboard (42 key)

[Gadgets](#) > [Computers](#)

Tags: [keyboard](#) [splitkeyboard](#)

A tray case for the cantor split keyboard (42 key version).

The tray is a tight fit with holes in the bottom for pins to go into to make for a rigid case for your keyboard to sit into.

Mirror the design in your slicer for the right side.

I have included the step file for easy remixes
