Summary

A basic hook that fits onto an ikea karlby "countertop" (desk)

[Household](#) > [Office](#)

I wanted to make something to hook my bag onto, instead of just leaving it on the floor. I have an ikea karlby countertop as my desk with a motorized frame, so I decided to make this and hook my bag on one edge of the desk.

Printed in polyterra PLA in black, 15% infill, and printed in-place
