updated 24. 1. 2023 | published 24. 1. 2023

Summary

Insert for Protopasta's 1kg and 500g cardboard spools. Helps the spool roll more easily over spool holders.

[spooladapter](#)

Insert for Protopasta's cardboard filament spool allowing it to run more smoothly over spool holders. There is now a version for the 500g spools. The parts should screw together tightly so there is also a model with looser tolerances.
