Summary

2021 - 16" MacBook Pro M1 Pro vertical stand

[Household](#) > [Office](#)

Tags: [laptopstand](#)

Vertical laptop stand fits 16" 2021 - 2022 MacBook Pro M1 Pro (A2485) **with** e.g. MOSISO **Hard Case** **and** rubber feet!

The reason why the rubber feet should also fit in the stand is because I want to place the mbp with the **short edge** in the stand. The gap for the mbp is 25 mm, the stand base is (WxLxH) 100 x 200x110 mm. If you want to increase the weight you can fill e.g. **metal balls** into the base. This saves time and filament.

Print data:

Material PLA

Quality 0.30 mm draft

Infill 5 %

No brim or raft required, but you can

Print time 9h9'

Filament 205 g
