If you have a Google Home Mini, you need it !

The base is a fresh lawn, easy to maintain because it does not need to be watered. The bright green color gives a feeling of well-being and calm.

Even the stem of the flower has a shape that inspires calm and serenity.

The bright yellow petals give a note of life to the room, the circular shape and the inclination give a sense of cheerfulness to the observer.

If one then stops to observe the intensity of the look and the smile, one immediately understands that we are facing an almost living form. Just try to ask her something that is immediately answered by a very kind voice.

Put one in each room and you will change your life.

P.S. Then more sunflowers you have, the less likely someone will eat your brain ...
