## Summary

Pi 4 case with articulated cam attached to x axis

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [articulated](#) [attachable](#) [cam](#) [pi](#)

I wanted a case that I can attach to body of the printer, and sometimes deattach easily and something with a cam arm.

You can find the cam arm here: <https://www.printables.com/model/3407-articulating-raspberry-pi-camera-mount-for-prusa-m/files>

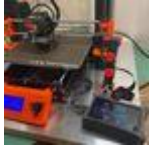

This model has been inspired by this design: <https://www.printables.com/model/51568-octoprint-with-hyperpixel-display-and-camera-mount>

## This remix is based on

**Articulating Raspberry Pi Camera Mount for Prusa MK3 and MK2**
