## Summary

quick model I made for some Maya practice. couldn't find any good ones online so had to do it myself. pretty good ig

[pochita](#) [puppy](#)

lil doggie pochita needed to be modeled. couldn't find any good ones. for a 2hr job, I'd say it ain't that bad. 3d prints well if you make it massive so there's an excuse to make it life size ;)

Might not update the model. college n all that. Enjoy ur new pet. don't feed him after midnight.
